

APM Proposals Made After the May 2023 VAB Meeting

APM Section	Response to Comments
3.3 Utilization of State and Federal Funding	Staff recommends adding information on the federal reimbursement for a state-funded project from the master agreement for consistency and quicker reference.
3.5.2 Project Scoping	Staff recommends adding a clarification that scope contents should be coordinated with the DOAV project manager, consistent with other sections in the manual.
3.6 Procurement for State Funding	Staff recommends additional clarification that the procurement of contracts determines the need for an audit.
3.8 Sale, Transfer, and Disposal of Property Acquired with State Resources	Staff recommends adding clarification on the calculation for reimbursement to the state if the sponsor disposes of property before the grant obligation term has expired.
4.1 Obstructions	Staff recommends expanding eligibility to include mitigation.
5.11.1 Emergency Request	OAG provided an update for the process.
9.2 State Participation	Staff recommends updating the limit for air carrier projects.
9.3 Project Scoping	Staff recommends revising the section to support information specific to the Aviation and Airport Promotion Program.
9.4 Project Request Process	Staff recommends updating the supporting documentation information to match the current process.
9.7.1 Reimbursements	Staff recommends revising the section to support information specific to the Aviation and Airport Promotion Program.
A.37 FAR Part 139 Airports - Airport Security Facilities, Systems, and Equipment	Staff recommends additional clarification for cyber security monitoring and computer servers.
B.7.3 Terminal Building Renovation and Expansion B.7.4 Terminal Building Replacement	OAG recommends using <i>must specify</i> for more affirmative direction than the <i>does need to specify</i> recommended by staff.
Appendix C Access Roads	Staff recommends removing <i>when federal, state, and local agency funds will be used to finance the road</i> as the clause is not needed for clarification.
Appendix F Grant Obligation Terms	Staff recommends adding AED devices to the list of project types, reducing the term for a security audit to 3 years to match the life cycle of the independent audits, and reducing the security gate term to 10 years as gates have moving parts that wear different than a fixed fence.
